Milestones Families,

Re: Health & Safety Update

There is so much being shared through media platforms regarding Covid and Arizona schools. At this time, Milestones would like to spend our energies on students' academic growth and in providing a community that everyone is able to thrive in, instead of throwing ourselves into the battles pertaining to masks. Milestones will continue to be Mask Optional, with the understanding that this could change due to government mandates and/or health statistics on our campus. While we have been fortunate to not need to quarantine classrooms due to a positive case on campus, we have had some close calls. We are grateful to families with a positive, close contact that have quarantined their students for the recommended time frame before returning to campus. We ask that families continue to make decisions that is best for the entire Milestones Community: regarding keeping your child home when sick, quarantining when necessary, urging handwashing and even using masks. We will always respect our families for their choice and ask everyone else to do the same.

The 2021-2022 school year will be filled with hiccups and detours, but as a community, we will successfully get through it.

Have a great weekend!

Milestones Administration
